Will You HELP Bring Back The Boys of This Community?

Our boys, the boys from this town and this county and this state, are fighting the Huns. They are in the trenches in France, they are sailing the U-boat-infested seas, they are going "over the top" in the face of German cannon and machine gun fire.

Many, many more of our boys are now training and will soon be in France, and more are yet to be called.

And, remember, these are our boys; those who are near and dear to us. They are doing their ALL. They are giving their ALL. They are prepared to make the extreme sacrifice that our homes, our town, our nation, may escape the ravages of the Hun.

We want them—one and all—to come back to us.

Will You Help to Bring Them Back?

Will you help to provide them with the things they need, with clothes and food and munitions, that they may complete as quickly as possible the terrible task assigned to them?

Will you support our boys while they are fighting for us, fighting the German autocracy that seeks to destroy our ideals of liberty and justice?

Compared to their heroic sacrifice our part is but small—that of providing the funds to keep them equipped; to build and man the ships that will transport their food, their clothes, their guns and their ammunition, and to pay for these things.

Yes, we, the people of this community, will support our boys.

We will do it by buying bonds of the Third Liberty Loan; by buying all these bonds we can; by making such sacrifices as are necessary to do this. That will be our support for Our Boys.

Do Something

America must sit steady in the boat. More and more it becomes apparent that upon her action hangs the destiny of the world. Every day it becomes more apparent that she is to be the deciding factor in the present gigantic conflict. This is a grave responsibility, but this country has never yet dodged responsibility, and God forbid that she should begin it at this late day. Our people were ever a people of action when action was called for, and these are the days that call for vigorous, decided, virile action—action that shall not only protect and perpetuate our institutions and our national life, but that determine whether or not these shall be typical of the world of the future. We are making history. May that history be to our everlasting credit.

If words would win the war, there are people in this community, and in all others, no doubt, who would be capable of doing yeoman service. But words will not win. Talk is said to be "cheap," but in the present emergency we are constrained to believe it comes very high. What is needed now is not words, but deeds. Get down to business and brass tacks. DO SOMETHING. Hustle. Raise something to eat, or to clothe somebody or do something to supply some other necessity. Work, work, and keep on working, and let the words stay in the dictionary. They're not needed.

Don't get the wrong angle on this "Liberty Loan," son. It doesn't mean that YOU must do the loaning. It means that your government proposes to loan you the opportunity of investing your spare means in a proposition as sound as the Rock of Ages. It means that the opportunity of your life is offered you to gather to yourself your portion of national honor and glory. It means that probably for the first time in your rather careless life you have the chance to become a really necessary cog in the great wheel of progress. It's the turning point in your life, son. Be sure you make the right turn.

The club women of the country have stepped into the breach and will do their "bit" toward winning the war by divorcing women from fashion's rule. They want it understood that "it is no longer fashionable to be stylish." This is a sensible decision, and they might add that it is no longer sensible nor patriotic to be stylish.

Uncle Sam might have thought he really had hurt the Dutchman's feelings when he took over those ships, if he hadn't seen the old fellow wink the off eye at the same time he let out that howl.

The Germans have captured Ham. Let us hope it was picked clean to the bone when they got it.

The farmer who is unwilling to raise \$2.25 wheat should ask himself the question if he is willing to exchange places with his boy who is facing German bullets for \$30 a month.

A Colorado man had his jawbone patched up with a rib. But this isn't the first instance in which a rib was used to perfect a talking machine.

Hindenburg can now plead, as his apology for breaking that Paris date, that his royal master wouldn't let him.

The defeat of the entire Thompson ticket in Chicago would argue that Big Bill must be content to serve the Kaiser in a more humble sphere than the United States Senate.

Plant seeds and grow bullets. Impossible, you say? Not at all. The great need of the allied forces on the front to-day is ample supplies of food. The need of the allied nations is food. Without it the war would prove a failure, it matters not how many bullets we mold and send across. Food and more food is the cry, and with it we will make effective the bullets. Hungry soldiers can have no heart for fighting, and ours must fight this war to a finish. RAISE SOMETHING TO EAT.

If any one doubts the ability of the women of this country as fighters they are reminded that just now these women are successfully prosecuting three great wars. They are doing yeoman service in whipping the Kaiser, are successfully prosecuting a war for political recognition, and are whipping John Barleycorn to a standstill.

Cole Blease of South Carolina announces that he will be a candidate for the United States Senate. Probably figures on a fuel shortage next winter and calculates he could raise the temperature at Washington.

The members of that German firm manufacturing aviators' goggles, who produced glasses that reduced vision by 15 per cent, should be made to look through bars.

Those women and children killed and mangled in that Paris church by the big German gun were merely another acceptable sacrifice to Gott.

Diamonds are said to be cooler than paste imitations. But they usually produce the opposite effect upon the recipient.

In regard to the demoralization of our aviation program, would it be right to characterize it as "up in the air?"

It isn't doing without the prohibited things that worries most of us in this Hooverizing business; it's getting the things we may eat.

Better feed the boys over there now if we don't want to feed the Germans, later on.

HIGH SCHOOL HIKE

Those who will go on the High School "hike" will take the 9:15 boat for Sausalito on Saturday morning.

RED MEN CONVERT TWO PALEFACES TO TRIBE

(By Charles A. Sands.)

Tippecanoe Tribe, No. 111, I. O. R. M., held its regular meeting last Thursday evening. After all the business of the tribe had been finished, the adoption of Palefaces R. Woodman and D. Farrell took place. Although this is nothing unusual, as the local tribe of Red Men have initiated over twenty-five new members, they still welcome and strive to increase the membership. After a repast of corn and venison the tribe quenched the council fire with the hope that next Thursday, as well as the following Thursdays, will show a marked increase in attendance.

RED CROSS SOCIETY

LOCAL CHAPTER GIVEN NEW IMPETUS; SALVAGE BUREAU IS STARTED.

Efficiency, cohesion and results are the foundation stones upon which the South San Francisco Chapter of the American Red Cross Society will build its superstructure of a greater organization in this city.

Mrs. Brady Wolfe, who in the period between leaving South San Francisco for Oakland and her return here has been actively engaged in the work of the Oakland Chapter, which has a membership of 31,000, has been appointed chairman of the Bureau of Salvage, through which the Red Cross expects to accumulate a substantial fund for its operations. Mrs. Andrew Hynding has generously donated quarters for the establishment of a superfluity shop, which will be on Grand avenue between Linden and Maple, and the organization is appealing to the people to save many articles which have heretofore been regarded as practically worthless, but which can be converted into money by the society.

Bandages Badly Needed.

Three thousand five hundred bandages a week is South San Francisco's quota for the Red Cross work.

Wednesday evening has been set aside for the working time of the society; the work rooms are located in the High School. Every woman can, and should, make bandages. They go directly to the American expeditionary forces which are now facing the Huns across No Man's Land from the trenches of France.

BUY BONDS OR PAY FINE.

Judge Porter E. Lamb Puts Alternative Up to Autoists.

Justice of the Peace Porter E. Lamb went Justice of the Peace George E. Seely one better when he compelled seven autoists brought before him for breaking the speed law through Camp Fremont to purchase \$50 Liberty bonds.

The court gave the defendants the alternative of paying \$10 fines or going to jail for ten days. They all decided to buy bonds, one of them paying spot cash and the other six making first payments of \$5 on the installment plan. Judge Lamb announced that no case would be dismissed until the payments of the Liberty bonds had been completed.

S. P. TICKET AGENT AT

REDWOOD CITY ROBBED

Henry Hobbie, night ticket clerk at the Southern Pacific station in Redwood City, was held up and robbed about 11:20 o'clock Monday night by two men in uniform of United States soldiers, who entered the depot while Hobbie was alone, covered him with two automatic revolvers and compelled him to give them the contents of the cash drawer, amounting to about \$20. After taking the money and warning Hobbie not to spread the alarm, they fled from the station and disappeared.

CARS CRASH ON HIGHWAY.

A number of persons narrowly escaped serious injury about 8:15 o'clock Monday morning when a large touring car owned by a San Francisco doctor and occupied by five people, crashed into a small roadster driven by C. E. Congdon of 195 Bellevue avenue, San Mateo. The collision occurred at the intersection of the State highway and Third avenue, San Mateo, and the touring car, which was traveling at a high rate of speed, swerved off and crashed through a fence. Fortunately no one was injured, but both cars were badly damaged.

SWART JERKS UP DUARTE FOR ILLEGAL CONDUCT

The liquor license of F. S. Duarte, Pescadero saloonman, was suspended by the Board of Supervisors following the filing of an affidavit by District Attorney Swart, charging Duarte with conducting his place in a disorderly manner. The district attorney said in his affidavit that Duarte "has been conducting a room adjacent to his said saloon, which room is used for illegal purposes and in an unlawful manner." Although the affidavit did not state what these "illegal purposes" were, Dr. C. V. Thompson, who represents Pescadero on the board, said it referred to gambling.

Alexandra Carlisle in "Tides of Fate"

Offering at Royal Tuesday Evening

Miss Alexandra Carlisle, the well-known stage favorite, is the star of the new World-Picture which will be shown at the Royal Theatre on Tuesday evening, April 23. This picture is called "The Tides of Fate," and it is taken from the famous novel of the same name by Kate Jordan. The story deals with the career of Fanny Lawson (played by Miss Carlisle) and of the misfortunes and final happiness which came to her through her marriage to Stephen King, a notorious counterfeiter. When detectives come to apprehend King for his activities in making bad money,

the girl is sent to jail as an accomplice. For two years she languishes in the penitentiary and then manages to escape through the kind-heartedness of an actress who comes to entertain the inmates of the institution. After her escape she reads in a paper that her husband has been killed in a mine disaster. Later she meets John Cross, who loved her before her marriage, but when he proposes marriage the thought of her imprisonment comes to her and she refuses him. King, who is not really dead, finds her and demands money from her. Cross is attracted by the sound of the two fighting and is knocked out

Your Dollars Here or in Berlin?

The stupendous struggle for supremacy now going on in France has brought home to every American, as nothing else ever has, the extreme danger of our National life and ideals.

The time for talk has passed. Quick action is imperative NOW. We must put our shoulders to the wheel by putting our hands in our pockets. Unless we win this war, every dollar we have now and every dollar we make in the future will be marked with the Kaiser's brand. Do you doubt it?

Belgium	PAID
Servia	PAID
Russia	PAID
Roumania	PAID
Poland	PAID
Northern France	PAID

If you want to find the money saved by the thrift of those nations subject to the will of Germany, look into the IMPERIAL TREASURY at BERLIN. If you want your dollars to join this "round-up," hold on to them and FAIL to help your Government now.

If the Kaiser gets your dollar you will never see it again. If you loan it to your Government, it will be spent for your protection, and will come back to you with interest.

by King, who is later shot by a policeman. And Fanny and Cross are happily united.

Miss Carlisle gives a splendid rendition of the role of Fanny and her support is all that could be desired.

"Tides of Fate" is a mighty interesting and effective photoplay.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F.
